

## News Release

### **Transtelco Connects with Equinix, TELEX, and Databank to extend Ethernet Services to Key U.S and Mexico Locations**

*Transtelco establishes global reach with new connections*

El Paso, Texas, / Ciudad Juárez, Chihuahua, October 21<sup>st</sup> 2010 – [Transtelco](#) today announced that it has turned up three collocation facilities in Dallas with Equinix, Telex and Databank. Connecting with these Exchanges enables Transtelco to reach locations throughout the US and around the world. Transtelco can now offer new types of services over a significantly wider range of locations to much better serve end-users in Mexico and the USA. The connections also enables US based service providers to efficiently reach businesses based in regions served by Transtelco.

“Connecting with these Exchanges enables US based service providers to quickly and efficiently reach end user locations connected to our Mexican and US networks,” said Arturo Iglesias - CTO, Transtelco. “This is also an extremely effective means to better serve our Mexican based end-user customers at their locations throughout USA and beyond.”

Carrier Ethernet, TDM and SDH Services represent an important means of delivering a wide variety of new services offered by Transtelco and enables new high performance applications for Transtelco’s customers. Interconnecting with other carriers via these Exchanges enables Transtelco to serve a much wider range of customers located outside Transtelco’s serving area.
