

## News Release

### Transtelco Expands its Fiber Network Routes in Central and South Texas

El Paso, Texas, / Ciudad Juárez, Chihuahua, January 31, 2012 – [Transtelco](#) today announced that it has turned up additional fiber network routes in Central and South Texas consisting of Dallas, Austin, San Antonio, Laredo and McAllen. Deployment has been on-going for the past 6 months and Transtelco plans to continue to build approximately 350+ Kilometers of Fiber south of the US-Mexico Border in order to reach the Northern- Mexico Cities of Reynosa, Monterrey and Saltillo enabling Transtelco to connect both Wholesale and Enterprise customers in all markets back to its Core Network Backbone across the entire Southern United States and beyond. Transtelco will offer competitive solutions for Transport, IP Access, Voice, Collocation and Content Delivery services. Transtelco can now offer new types of services over a significantly wider range of locations to much better serve end-users and Service Providers in Mexico and the USA.

“Expanding our Network into these key cities enables US and Mexico based service providers quickly and efficiently reach other locations connected to our US-Mexico network as well, bringing it a step ahead in the complete deployment of a new and unique Northern Mexico – Southern US fiber ring,” said Arturo Iglesias, Chief Technology Officer, Transtelco.

“This is also an extremely effective means to better serve our Mexican and US based end-user and Carriers customers at their locations throughout USA, Mexico and beyond.” said Edgar Mosti, Vice President – Wholesale Network Services, Transtelco.

Located in the heart of the largest border region in the world, Transtelco’s geographic focus includes the entire southern United States - Mexico border. Transtelco delivers world class telecommunication services including: Transport, Dedicated IP Access, Voice, Collocation and CDN Solutions for Carrier and Enterprise customers over a Next-Generation DWDM platform. Our philosophy of “simplified communications” allows our clients to focus on their core business while we solve their telecommunications issues.
